

Environmental Health and Safety Services

Trusted services resource to public agencies and educational institutions for over 25 years. Small business serving the Pacific Northwest and federal facilities nationwide.

EHS-International, Inc. (EHSI) is a recognized leader in environmental assessments and remediation, hazardous materials management and abatement design (lead, asbestos, PCBs, and RCRA 8 metals), indoor air quality, and construction management services.

EHSI provides expert industrial hygiene services including job hazard analysis, worker health and safety plans, AHERA awareness training, and worker exposure monitoring. The firm specializes in indoor air quality consulting, mold and moisture assessments, and LEED® IEQ credits certification testing.

EHSI performs many environmental services for commercial real estate property transactions including due diligence, Phase I, II, III Environmental Site Assessment (ESA), hazardous building materials assessment and remediation, and underground storage tank (UST) assessment and closure.

FEDERAL EXPERIENCE

Our firm has worked on hundreds of projects for federal clients both as a prime and subconsultant.
